

A Naturalist` Guide to the Birds of Borneo

Wong Tsu Shi

Now fully revised, this easy-to-use identification guide to the 280 bird species most commonly seen in Borneo (covering Sabah, Sarawak, Brunei and Kalimantan) is perfect for resident and visitor alike. High quality photographs from one of Borneo's top nature photographers are accompanied by detailed species descriptions which include nomenclature, size, distribution, habits and habitat. The user-friendly introduction covers geography and climate, vegetation, opportunities for naturalists and the main sites for viewing the listed species. Also included is an all-important checklist of all of the birds of Borneo encompassing, for each species, its common and scientific name, IUCN status as at 2015 and its status in each state of Borneo.
