

National Geographic Moments : Hats

Edited by Leah Bendavid-Val

The perfect gift for Mothers Day, the latest in the new small-format photography gift book series, National Geographic Moments, Hats traces the global history of hat styles up through today. It is a wonderfully evocative, and fun photographic portrayal of one important way we express our style and individuality. National Geographic Moments: Hats takes a look at how hats have reflected culture throughout history. Witness the evolution of hats from a form of protection to a statement of expression. The book presents archival as well as modern images - some being seen for the first time. Understand how hats divulge the inner-self of both women and men. From crowns to caps, to scarves, and wraps, choices contemplated reveal expressive moments. Short text tells the story behind the photographs.
