**National Science and  
Technology Council**  
Executive Order

The National Science and Technology Council (NSTC) was established in the US by Executive Order on November 23, 1993. This Cabinet-level council is the principal means within the executive branch to coordinate science and technology policy across the diverse entities that make up the Federal research and development enterprise. Chaired by the President and the Director of the Office of Science and Technology Policy, the membership of the NSTC is made up of the Vice President, Cabinet Secretaries and Agency Heads with significant science and technology responsibilities, and other White House officials where necessary.
