Nationalism in the English-Speaking World

Edited by Rachel Hutchins-Viroux, Edited by
Jeremy Tranmer

A great deal has been written in recent years about nationalism. Yet scholars remain sharply divided as to a coherent theoretical model of this phenomenon and many have called for further empirical research. This volume pursues this line of inquiry, examining a variety of geographical contexts within the English-speaking world, including Australia, Canada, India, the United Kingdom and the United States at different historical periods. These interdisciplinary studies combine elements of sociology, political science, history, literature, and cultural studies.
