

The Natural Limitations of Youth : The Predispositions That Shape the Adolescent Character

John J. Mitchell

In this book Mitchell investigates how the natural limitations of youth shape not only the day-to-day life of teens, but the entire culture. This book analyzes how adolescents are prone toward critical decision-making errors how they are vulnerable to exploitation in their peer groups, in their friendships, and in their love relationships how they are inclined to confuse fact with fable how they are shaped by narcissistic ideology and ego-enhancing belief systems how they are inclined toward poor partner selection in their romantic involvements and, finally, why they need dignified adult mentors if they are to achieve a dignified identity of their own.
